Lia Nurcahyani, Dyah Widiyastuti, Faizul Hasan, Yanti Cahyati (Author):

We have reached a decision regarding your submission to Open Access Macedonian Journal of Medical Sciences, "DEVELOPMENT OF DECISION-MAKING TOOL FOR FAMILY PLANNING APPLICATION : FEASIBILITY TEST ACCORDING TO MATERIAL EXPERTS ", Manuscript ID = OJS9315.

Our decision is to:

Sasho Stoleski

Reviewer C:

The research subjects were six midwives as material experts. The research instrument includes the decision-making tool for a family planning application, as well as a questionnaire. Data analysis includes descriptive, univariable analysis. The results of the feasibility test for the decision-making tool for family planning application according to material experts obtained a value of 81.3%, which is categorized as very suitable for use as a family planning counseling medium. Further researchers are expected to develop a second-level application by conducting a trial limited-scale, wide-scale trials, and level 3 testing with experimental designs using a control group.

In General: it's a good paper and the subject of the manuscript is applicable and useful.

Title: the title properly explain the purpose and objective of the article

The research subjects were six midwives as material experts. The research instrument includes the decision-making tool for a family planning application, as well as a questionnaire. Data analysis includes descriptive, univariable analysis. The results of the feasibility test for the decision-making tool for family planning application according to material experts obtained a value of 81.3%, which is categorized as very suitable for use as a family planning counseling medium. Further researchers are expected to develop a second-level application by conducting a trial limited-scale, wide-scale trials, and level 3 testing with experimental designs using a control group.

In General: it's a good paper and the subject of the manuscript is applicable and useful.

Title: the title properly explain the purpose and objective of the article

Abstract: abstract contains an appropriate summary for the article, language used in the abstract is easy to read and understand, there are no suggestions for improvement.

Introduction: authors do provide adequate background on the topic and reason for this article and describe what the authors hoped to achieve.

Results: the results are presented clearly, the authors provide accurate research results, there is sufficient evidence for each result.

Conclusion: in general: Good and the research provides sample data for the authors to make their conclusion.

Grammar: Need Some revision. (Check The Paper Comments).

Please provide the following information in the Paper

1. Conflict of Interest

2. Source of Funding

Finally, this was an appealing article, in its current state it adds much new insightful information to the field.

Recommendation: Accept Submission
