

MOTTO DAN PERSEMBAHAN

Regret the past because there is disappointment but make that regret a weapon for the future so that no mistakes occur again.

The best way to get out of a problem is to solve it. Stop looking at what is wrong and not good in our lives, start being grateful for what is good and right in our lives.

Achieve your knowledge and to achieve knowledge learn to be calm and patient. Patience has two sides, the other gratitude to Allah SWT.
